MISSION LIFE 2023

LIFE is an India-led global mass movement

- LIFE was introduced by Prime Minister Narendra Modi—at COP26 in Glasgow on 1 November 2021—as a mass movement for “mindful and deliberate utilization, instead of mindless and destructive consumption” to protect and preserve the environment.
- It aims to nudge individuals and communities to practice a lifestyle that is synchronous with nature and does not harm it.
- Those who practice such a lifestyle are recognised as **Pro Planet People**

India is the first country to include LIFE in its Nationally Determined Contributions:
“India will put forward and propagate a healthy and sustainable way of living based on its traditions and the values of conservation and moderation, including through a mass movement for LIFE, as a key to combating climate change.”
