12.	Quantification of benefit accrued from the project, as derived from the Impact Assessment Report/evaluation report by independent agency if any	Evaluated Departmentally	
13.	Documentary proof like Photo\video\news items etc if any.	As detailed below	

Project at a Glance:-

It is said that, health is wealth. In our country more than 70% population are living in villages. The conditions of social commodity/Infrastructure in villages are very poor, somewhere these are not available even.

Govt. of India/State Govt. are providing basic facilities in health sector directly, some NGO/other charitable society are also operating hospital and other related health care facilities.

A proposal was received from VPHEP unit for financial assistance to provide 100 beds in Hospital at Koteshwar (Rudraprayag distt.), Uttarakhand.

In hill areas of Uttarakhand the medical facilities/hospital are not as good as compared to plain areas. Location of Distt. Rudraprayag is far from Rishikesh and medical facilities are not good in this area. Every year thousand numbers of pilgrims come in Shrine Bedrinath/Kedarnath on way to Char Dham Yatra.

A 300 bed hospital was constructed by “Jyotishpeethadheeshwar Jagadguru Shankaracharya Swamy Madhavashram Charitable Trust (Regd.)” at Koteshwar (Distt. Rudraprayag) and the trust requested to THDC for financial assistance of 100 beds.

Benefits from the Project:-

After approval an amount of ₹ 15.00 was released to the implementing agency for 100 beds in hospital. 100 ill persons can be admitted at a time in the bed to get proper medical assistance. After getting the facility the people of village Koteshwar as well as pilgrims are able to get proper health care.
