### ***Project at a Glance:-***

The goal of infrastructure development in education institution is to increase school attendance, motivation to staff & students and to improve academic performance of students as an end result. It is assumed that this favorable attitude of augmentation of basic facilities towards school infrastructure facilitates the goal of more education in rural areas.

As per need of the local community of village Chopra, Block Pramookh submitted a request to construct Primary School Building at Chopra village for development of education in the village. The work has been carried out through BDO Jakhnidhar and completion cost of the work is ₹ 9.36 lacs.

### ***Benefits from the Project:-***

The construction of school building was carried out through CSR head and now approx. 60 children of the village are getting benefit in each academic year. After construction of the school building there shall be academic and social improvement among the villagers and community is now feeling happy & satisfied.
