Report

Swachh Bhatat: Swachh Vidhayalaya is the national campaign driving 'Clean India: Clean school' A key feature of the campaign is to ensure that every school in india has a set of functioning and well maintained water, sanitation and hygiene facilities. Water sanitation and hygiene in schools refers to a combination of technical and human development components that necessary to produce a healthy school environment and to develop or support appropriate health and hygiene behaviors. The technical components including drinking water, hand washing, toilets and soap facilities in school compound for use by children and teachers. The human development components are the activities that promote conditions within the school and practices of children that help to prevent water, hygiene and sanitation related diseases.

Introduction

When a family uses a school/public toilet, it is not only protects them from unhygienic environment their own excreta; it also helps to create a sense of well being and more awareness towards cleanliness. Indeed, there is a big impact on the health of the community as whole from the overall level of sanitation. As the toiletls are covered with walls, it is safe for the person to use mainly women and adolescent girls.

Need Assessment:

THDCIL is working CSR activities in its business area and surrounding Rishikesh. Govt. Model Primary School, Dhalwala, Block Narendra Nagar, Tehri Garhwal had requested SEWA-THDC to repair the toilets & Some civil development works for their students to improve sanitation system. Presently 200-250 students are studying in the school. SEWA-THDC decided to Development (Civil works) & repair of toilets in the school premises.

Out come from the project:

Development works i.e. proper play ground, drinking water supply, prayer ground & Repair of kitchen etc are ready to use and handed over to school management. Due to development in the school, all student and staff are happy. It will also help to create a sense of well and more awareness towards cleanliness. Indeed, there is a big impact on the health the community as a whole from the overall level of sanitation.

There activities are carried out by the M/s Girveer Singh Rana against MOU: 42/SEWA-THDC /Rksh/2017/dt. 31.10.2017 above said activities is completed and photographs as under given below:
