Report

Swachh Bhatat: Swachh Vidhayalaya is the national campaign driving 'Clean India: Clean school' A key feature of the campaign is to ensure that every school in India has a set of functioning and well maintained water, sanitation and hygiene facilities. Water sanitation and hygiene in schools refers to a combination of technical and human development components that necessary to produce a healthy school environment and to develop or support appropriate health and hygiene behaviors. The technical components including drinking water, hand washing, Prayer Ground, School kitchen, toilets and soap facilities in school compound for use by children and teachers. The human development components are the activities that promote conditions within the school and practices of children that help to prevent water, hygiene and sanitation related diseases.

Introduction

The new national campaign Swachh Bharat, Swachh Vidhyalya or clean India, clean School was launched in September 2014, heralding a new era in the Indian Government focus on wash in school. A key feature of the campaign is to ensure that every school in India has a set of functioning and well maintained water, sanitation and hygiene facilities. Technical component include drinking water, hand washing, toilet and soap facilities in the school compound for use by childrens and teacher and the human development. Components are the activities that promote conditions within the school and the practices of children that help to prevent water hygiene and sanitation related disease. Another aim is to improve wash curriculum and teaching methods while promoting hygiene practices and community ownership of water and sanitation facilities within school. This will improve children's health, school enrolment attendance and retention and paves the way of new generation of healthy children.

Need Assessment:

THDCIL is working CSR activities in its business area and surrounding Rishikesh. Govt. Model Primary School, Tapovan, Block Narendra Nagar, Tehri Garhwal had requested SEWA-THDC to repair the toilets, class room, kota stone flooring in class room, vernda & prayer ground & Some civil development works for their students to improve sanitation system. Presently 115-120 students are studying in the school. SEWA-THDC decided to Development (Civil works) & repair of toilets in the school premises.

Out come from the project:

Development works i.e. laying of kota stone in class room and prayer ground, , Repair of kitchen, Store and toilets. Construction of path way etc are ready to use and handed over to school management. Due to development in the school, all student and staff are happy. It will also help to create a sense of well and more awareness towards cleanliness. Indeed, there is a big impact on the health the community as a whole from the overall level of sanitation.

There activities are carried out by the Sh. Beer Singh against MOU: 071/F-052/SEWA-THDC/RKSH/2018-19 above said activities is completed and photographs as under given below:
