13.	Document proof like photo/Video/news it's etc if any	Photographs etc.	

Project at a Glance:- Education is the fundamental right of every citizen granted by the Government of India under Article 21 A of the constitution. Today, Education is very much essential for survival in the society. Govt. has also declared “Education”, a right of human beings. Education spreads awareness in society about how we can be a good social being and help others in our daily life for overall development of the nation. Only books are not enough for getting a quality of education, it also needs some other basic infrastructure for class rooms, drinking water, sanitation, sports, power etc. For quality education, we should have other basic facilities like science lab, enough ventilated space for sitting, furniture, etc. Education plays a very important role in shaping the future of a country.

THDCIL is developing various facilities of education, health, infrastructure environment in its project affected area under CSR activities through SEWA-THDC. Under this Project, Chief Secretary, Uttarakhand Govt. submitted a proposal for providing CSR fund to DM, Rudraprayag for reconstruction of Govt. Upper primary school, Bhararsend, District Rudraprayag. District Education Officer (DEO), Rudraprayag vide letter dt. 20.11.2018 conveyed that the main School Building was damaged during 2013 Calamity, which could not be repaired due to paucity of funds & requested for reconstruction work of damaged School Building.

Implementing Agency:- Distt. Education Officer, Primary Education/ District Project Officer Sarv Shiksha Abhiyan, Rudrapryag.

Need Assessment:- Educational Standards of Government schools in Uttarakhand are not too good because of the difficult geographical conditions and terrain as compared to other plain states of the country. To overcome above situation, DEO, Rudraprayag raised their demand for reconstruction of damaged School Building. Similar demand was received through Chief Secretary for Re-Construction work of Upper Primary School, Bhararsend to Executive Director (Social & Environment), THDCIL, Rishikesh. Proposal was put up in 25th BBLC dt. 15.10.2018 and approved the same.

Benefit from the Project: After Completion of reconstruction work of Upper Primary School, Bhararsend, Distt-Rudraprayag, Students & all Staff of School were very happy & thanked to SEWA-THDC for its vulnerable work. The reconstruction work has been Complete and School Building ready to use and

handed over to School Administration. The quality of a school, its environment and facilities has also encouraged students for learning.
