08	Location/Area of operation of the Project	Indiranagar & Sheeshamjhadi,Rishikesh,. Uttarakhand.	
09	Activity covered in the Project and Activity Code	Health (H)	
10	Targeted Group	Poor and Needy persons & mostly labourer’sClasses	
11	Number of people benefitted from the project	Approx. 62094	
12	Quantification of benefit accrued from the project, as derived from the Impact Assessment Report / evaluation report by independent agency. If any	Evaluated Departmentally	
13	Documentary proof like Photo \video \news items etc. If any	details are as below	

Project at a Glance:-

Sheshamjahari Muni Ki Reti Homeopathic Center

Swami Narayan Mission (Society) is a Registered Public Trust (NGO) engaged and interested in various social activities such as Medical, Educational, Social and Cultural. The Trustees & Executive members of Swami Narayan Mission (Society) are highly educated and dedicated to the ashram for social work. The trust is registered under section 12 A and 80 G of Income Tax Act, 1961. It has also obtained a Registration under FCRA, 2010.

Swami Narayan Mission (Society) is a very well known charitable trust (NGO) and famous in the medical field in Uttarakhand.

The mission had set up 06 Charitable Health Centers in the remote areas of Garhwal; **with a great contribution of Sewa THDC and THDC India Ltd** 1 one of them at Pokhri (Block Pratapnagar) another one at Dhauntri (Distt.Uttarkashi) established in March 2011, the third Health Centre at Koteshwarpuram (Block Narendra Nagar) established in March 2014 and fourth Health Centre at Pipalkoti (Distt. Chamoli) established in August 2016, fifth at Indra Nagar, Rishikesh and sixth one at Sem Mukhem in Tehri Garhwel. All of them Health Centers were being managed by Swami Narayan Mission Society (SNMS). The mission has been providing its best services to poor and needy people of all centers and all of villages nearby all of the above Health Centers with dedicated and selfless mind. We have been successfully managing all of six Health Centers through qualified & dedicated staff.

In the past 09 years thousands of poor people, living in difficult conditions at Pokhri and Dhauntri, Koteshwar and Pipalkoti, Indra Nagar and all of villages nearby all of the above Health Centers have been benefitted through the above health centers.

Except all of the above six health centers, **there is another Charitable Homoeopathic Health Centre is being run by SNMS in its premises has been receiving Financial Support for medicines from SEWA-THDC for almost 12 years. Swami Narayan Mission Society is always obliged to SEWA-THDC and its dedicated officers for this support.**

The mission provides the opportunity also to the new BHMS doctors to practice Homoeopathic Treatment.

The mission organizes various types of camps as a Awareness and Treatment Programme (For different kind of diseases) also at the countryside areas of Rishikesh, through these programmes the mission makes aware the society against diseases, how to protect themselves from diseases and medicines are also provided them according to their problems in the camps free of cost.

Indiranagar Homeopathic Center

Indra Nagar Health Centre is located in highly populated areas of Rishikesh, there are so many institutions, colonies, schools, and colleges, Railway Station, market, factories, most of people are educated near by the health centre. Indra Nagar is not a remote area but a lot of people residing in the colonies are poor & needy, suffering from the side effect of higher Antibiotic, Painkillers and unnecessary Surgery they need Ultra Modern Homoeopathic Treatment for permanent cure; only Homoeopathy is the Medical Science where medicine has no side effect and the best & last option of Therapeutic Science because of so many patients are suffering from Renal Failures, Hydronephrosis, Heart Diseases, Liver Cirrhosis, Splenomegaly and Pancreatitis etc. due to excess usages of higher Antibiotic, Painkillers. Some of people have no adequate information about Homoeopathic Medical Science, they have a concept that Homoeopathic Medicines effect very slowly and only for the last option that is no true. It is fact that diagnosis and selection of medicines are most important and very hard and tough in Homoeopathic therapeutic Science. A BHMS doctor can treat the patients but first they have to find out the cause of illness. Doctors must have a good experience of Homoeopathic Science.

On warm request of public of Indra Nagar SEWA-THDC, established a Homoeopathic Charitable Health Centre under the supervision of Swami Narayan Mission Society in 2018. Indra Nagar Homoeopathic Health Centre, Rishikesh, is the fourth of five Homoeopathic Health Centers in Uttarakhand. With a great contribution of SEWA-THDC, thousands of people of Indra Nagar had been getting benefits for two years. It was a very commendable effort of SEWA-THDC; it was like a boon of God for the public and patients of IndraNagar, but it is very sad that all of Health Centers had to be closed due to Corona virus- Locked Down. SEWA-THDC had to support the PM Disaster Relief Fund.

The mission organizes various types of camps as a Awareness and Treatment Programme (For different kind of diseases) also at the countryside areas of Rishikesh, through these programmes the mission makes aware the society against diseases, how to protect themselves from diseases and medicines are also provided them according to their problems in the camps free of cost.

Summary of OPD treated in the Ashram Dispensary from April 2019 to March-2020

Month	Male	Female	Children	Emergency	Daily patients in all	Total of Camps	Total patients in camps	Name of Specific cases	Total of specific cases yearly
