Introduction: Water is a very important part of Human life. It is one of the most important substances required to live on earth and used in day today life for many purposes other than drinking. We all need water, our bodies are made of about 70% water and all of our system and vital organs required it to function. There's no natural liquid other than water on earth without that would be suitable for the development of life.

Project at a Glance:- THDCIL is implementing CSR activities in its project affected area through SEWA-THDC. Under this program different CSR activities i.e Education, Health & sanitation, Rural Development, Environment and Livelihood generation are being implemented in the area.

A Proposal was received from DM (Tehri) for providing a truck mounted water tankers to Jal Sansthan Tehri for distribution of water to people of Tehri & nearby area. Who facing problem of water from long time. SEWA-THDC purchased a truck mounted water tanker 5000 Ltr. water Capacity through Gem. Total Cost of the project was Rs.11.89 Lakh

Operation of Methology:- Maintenance Division Uttarakhand Jal Sansthan Tehri has Written a letter to ED(TC) THDCIL Bhagritathipuram with a proposal for providing 04 Truck mounted water tanker 5000 Ltr. Capacity (TATA make) to the Jal Sansthan for distribution of water to people of Tehri.

The Proposal has been put up in 25th BBLC meeting and approved for 01 water tanker 5000 Ltr. The chassis of truck has been procured from Tata Motor through Gem and 5000 Ltr. Tanker fabricated at local market workshop at Rishikesh and mounted over chassis. The tanker has been handed over to Jal sansthan Tehri for water distribution.

Benefit from the Project:-

Jal sansthan Tehri is using of water tanker for distributing water to people of new Tehri Town and nearby area who are suffering from scarcity of drinking water. By this initiative we have resolved the problem to some extent for the people of New Tehri and nearby area.
