13.	Documentary proof like Photo\video\news items etc. If any	As detailed below	

Project at a Glance:-

Due to revolution in education system, use of computer has become more important and essential for students and community at large.

The most important benefit of computers is their practicability. A single machine allows students to calculate, to write grammatical corrections, editing & networking and use in all official works.

Keeping in view the use and career in computer education, It was observed by the management committee of SEWA-THDC to provide a six months computer Training Program to the BPL youth of Tehri Dam affected areas.

In this program male youth were selected for computer training and send to Himalayan Institute for Environment, Ecology and Development (HIFEED), Ranichori and female youth were selected for computer training program and send to Bhartiya Taknikke Shodh Avam Vikas Sansthan (BTVS). The program was residential in both centers.

Benefit of the Project:-

From this program 21 male youth and 16 female youth have been got benefitted. After getting the training all girls have become proficient in computer application and now all the male & female youth and their families are happy.
