### ***Project at a Glance:-***

It is said, prevention is better than cure. Doctor advices always for timely and frequently health check-up. As we do service of our vehicle in a time duration, similarly every person should medically check-up themselves once a year.

Annual health check up is a process wherein, you will develop with your doctor when a health crisis occurs and you will have a doctor to care you. Common diseases such as diabetes and high blood pressure etc. become serious health issues, if not attended in time.

The geographical condition of Uttarakhand state is typical as compared to other states because maximum land here is sloppy and hilly. Medical facilities in U.K. are not as good as we see in plains.

THDCIL is imparting its CSR role in health and health check up activities are being done in project affected area of Tehri Dam. THDCIL has organized health check-up camp for disabled persons including distribution of free assistive aid.

### ***Benefit from the Project:-***

Approx. 125 PAPs have got benefitted from this program.
