### ***Project at a Glance:-***

Due to revolution in education system, use of computer has become more important and essential for students and community at large.

The most important benefit of computers is their practicability. A single machine allows students to calculate, to write grammatical corrections, editing & networking and use in all official works.

Keeping in view the use and career in computer education, it was observed by the management committee of SEWA-THDC to provide a six months computer Training Program to the BPL youth of Tehri Dam affected areas.

In this program male youths were selected for computer training and sent to Himalayan Institute for Environment, Ecology and Development (HIFEED), Ranichori and female youths were selected for computer training program and sent to Bhartiya Taknikee Shodh Avam Vikas Sansthan (BTVS). The program was residential in both centers.

### ***Benefit from the Project:-***

The program has been implemented successfully. From this program 20 male youth and 15 female youth have got benefitted. After getting the training all male and girls have become proficient in computer application and now all the male & female youths and their families are happy.
