### ***Project at a Glance:-***

Education has numerous benefits for individuals and society. Human beings are curious creatures and they enjoy learning and acquiring new knowledge.

In India most of the people are living in villages and are poor. Due to poverty the people are unable to provide even basic education to their children.

A proposal was received from Sarvodaya Gram Vikas Sansthan, Jaise, Raebareli (U.P.) for teaching English language to the poor & minority students at Jaise and nearby area. The project was carried out through Gram Vikas Sansthan, Jaise, Raebareli (U.P.) for a period of six months.

### ***Benefit from the Project:-***

Education Improvement & Income Generation Training is organized at Jaise, distt. Raebareli for poor & minority school going students from class 3<sup>rd</sup> and class 8<sup>th</sup>. It was seen that the students who did not talk and read English in right way now are capable to speak and read English better and easily. Students and their parents are happy from this program as this programme has helped them in improving their communication skill and in a way has added to their individual personality.
