### ***Project at a Glance***

Hotel management courses have become an umbrella industry that encompasses a whole plethora of other sub-industries. A hotel industry is not only a blanket business incorporating many sub-businesses, often; it is also part of a larger conglomeration. Hotel management courses offer opportunities to build a network of industry contacts.

It was assessed and observed by the Management that most of the youth in Garhwal who have passed Intermediate are unemployed and either wasting their precious time and energy or migrate from the villages for their livelihood.

Keeping in view it was decided that if those youth may get training in hotel management courses they may get employment. Accordingly, 20 nos. educated youth were selected for hotel management courses from the Tehri Dam affected areas and send to KIHM Academy, Dehradun.

### ***Benefit from the Project***

Hotel management courses provide professionals with skills and technical know-how to get the job done. As per KIHM the trainees get confident to secure job to earn their livelihood.

After getting the training, the 20 youths have got employment in hotel industry and their standard of living has become better. Now the youths and their families are happy.
