### ***Project at a Glance:-***

Water is a fundamental part for survival of our life. It is easy to forget how completely we depend on it. Human survival is dependent on water and water has been ranked by experts as second only to oxygen as essential for life. Water is the medium for various enzymatic & chemical reactions in the body. It moves nutrients, hormones, antibodies, & oxygen through the blood stream & lymphatic system.

SEWA-THDC is imparting its role in CSR by providing drinking water to the community through construction of infrastructure and laying of pipe line in Tehri Dam Project affected areas and villages of district Tehri. In this regard a proposal is received from BDO Jakhnidhar, Tehri Garhwal for rupees ₹ 7.99 for laying pipe line for drinking water to schedule cast community of Village Nandgaon (Manthal), Block Jakhnidhar.

### ***Benefit of the Project:-***

After completion of the work community of the village is getting sufficient drinking water. Manthal is a schedule cast hamlet in village Nandgaon and no proper water supply was there. Now the community is happy by getting drinking water supply. Approx. 200 peoples are getting benefit through this scheme.
